

# Clever Frame<sup>®</sup> PYLONS

Modular sales support architecture

# We are proud to present to you the Clever Frame® Pylons Catalog

We appreciate that you have reached for it. Clever Frame® is a system of functional modular frames which you can easily use to create many original promotional solutions dedicated to your industry.

The possibility of easy and cheap exchange of the graphics allows the system to serve you for countless times for a long period of time. Pylons are another concept based on the same foundations.

The way you present your products is one of the most important elements of the sales process. Your clients upon seeing the product for the first time notice not only the product itself but also its surroundings. This situation is similar to a good salesperson - unfortunately, it's not only the facts and knowledge that counts. Appearance, the way someone speaks and body language have unprecedented meaning.

This is why we offer you an easy and at the same time highly effective way to create an inspiring point of sale. An area that belongs only to you and your client, dominated by your perfectly presented and displayed product.

We invite you to get to know our line of Clever Frame® pylons.
